ABOUT ME

Dedicated and detail-oriented Full Stack Developer with a Bachelor's Degree in Computer Science and Engineering and hands-on experience in building robust, scalable web applications using the MERN stack. Completed three end-to-end projects showcasing expertise in front-end and back-end development, API integration, and responsive UI design.

EDUCATION

Kathir College Of Engineering   **2019-2023**

Bachelor of Engineering (B.E.) in Computer Science and Engineering (CSE)

Completed academic projects on Analyzing Twitter Comments On Covid-19 Vaccination, demonstrating skills in system design ,data processing, and team collaboration.

SKILLS

Front-end Development	HTML5 ,CSS3 , Bootstrap, JavaScript, React.Js
Back-end Development	Node.js , Express.js ,RESTful API's
Database Management	MongoDB, Mongoose, MySQL
Tools & Technologies	Git, Github, Netlify, Render, Authentication (JWT, OAuth2)
Soft Skills	Collaboration ,Teamwork ,Communication and Adaptability

PROJECTS

Project Management Tool :   **2024-NOV**

Developed a full-stack web application to streamline team collaboration and task management using the MERN stack (MongoDB, Express.js, React.js, Node.js). The tool provides features for creating and managing projects, tasks, and team members efficiently.

Hotel Booking App: **2025-JAN**

Engineered a dynamic hotel booking system using the MERN stack (MongoDB, Express.js, React.js, Node.js) with a scalable architecture. Implemented features like real-time availability updates, secure payment integration, and an intuitive UI for seamless user experience.

Grocery App: **2025-FEB**

Designed and developed a feature-rich grocery shopping application using the MERN stack (MongoDB, Express.js, React.js, Node.js). Integrated real-time inventory management, secure checkout, and a user-friendly interface for a seamless shopping experience.

Health Management System: **2025-FEB**

Developed a Health Management System using the MERN stack (MongoDB, Express.js, React.js, Node.js) to streamline patient and clinic interactions. Integrated features such as appointment scheduling, secure prescription management, automated SMS/email reminders, and role-based authentication for doctors, patients, and administrator

CERTIFICATE

Zen Full Stack Developer Program:

Completed at GUVI Geeks Private Limited, gaining hands-on experience in building robust web applications using the MERN stack and mastering end-to-end development.
